

In partnership with

**2013 INTERNATIONAL ANTI-DOPING SEMINAR in ASIA**  
**“Therapeutic Use Exemptions and Anti-Doping Programs”**  
**25-26 January 2013**

---

**AGENDA**

---

**Objective:**

The objective of this International Seminar is to increase the understanding of the Therapeutic Use Exemption (TUE) process and improve the abilities of physicians and managers of RADOs and NADOs to effectively operate and manage the TUE process. The seminar participants are TUE/medical specialists and administrative officials of anti-doping organisation. We encourage networking activities and the sharing of knowledge and expertise among the participants.

There will be an introduction on the Athlete Biological Passport to familiarize the participants to this increasingly important aspect of Anti-Doping Programs.
